<sup>1</sup> Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

<sup>2</sup> "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

### **1.2. Roles and Responsibilities of the Board and Management**

The Board is ultimately responsible for all matters relating to the running of the Company, however that role is achieved mainly through governing the Company. It is the role of senior management to manage the Company in accordance with the direction and delegations of the Board, and the responsibility of the Board to oversee the activities of management in carrying out these delegated duties.

Brickworks' Board has the final responsibility for the successful operations of the Company. In general, it is responsible for, and has the authority to determine, all matters relating to the policies, practices, management and operations of the Company. The Board must also ensure that the Company complies with all of its contractual, statutory and any other legal obligations, including the requirements of any regulatory body.

The principal functions and responsibilities of the Board include the following:

- providing leadership to the Company and its employees;
- overseeing the development and implementation of appropriate corporate strategies;
- ensuring corporate accountability to shareholders;
- overseeing the control and accountability systems within the Company;
- ensuring robust and effective risk management, compliance and control systems are in place and operating effectively;
- monitoring the performance and conduct of the Company;
- monitoring the performance and conduct of senior management, and ensuring adequate succession plans are in place;
- ensuring the Company continually builds an honest and ethical culture; and
- approving the Company's remuneration framework.

All matters that are not specifically reserved for the board and are necessary for the daily management of the Company are delegated to senior executives and management, through the Managing Director who manages the Company in accordance with the strategy, plans and delegations approved by the Board.

### **1.3. Appointment of Directors**

The Company undertakes appropriate checks before appointing a director or putting forward to shareholders a candidate it recommends for election as a director and provides security holders with all material information in its possession relevant to a decision on whether to elect or re-elect a director including their independence, term of office served, qualifications and experience.

### **1.4. Terms of Appointment of Directors and Senior Executives**

The Company has a written agreement with each senior executive and Managing Director setting out the terms of their appointment. Non-executive directors appointed prior to 1 July 2014 are generally long serving directors who were appointed to the Board without written agreements. The Company has a written agreement with Mrs Page setting out the terms of her appointment. The Company will enter into a written agreement with each new director that is appointed to the Board after 1 July 2014 setting out the terms of their appointment.

### **1.5. Company Secretary**

The Company Secretary reports to the Managing Director and is accountable directly to the Board, through the Chair on matters to do with the proper functioning of the Board. The Company Secretary is accountable for advising the Board on corporate governance matters, managing the company secretarial function, attending Board and Board committee meetings and taking minutes and communicating with the ASX.

### **1.6. Diversity Policy**

Brickworks has a Diversity Policy (a copy of which is on the Company's website) which includes requirements for the Board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them. In addition Brickworks has an Equal Employment Opportunity Policy. The Company is committed to a policy of equal employment opportunity which aims to prevent the existence of discriminatory practices or measures which may hinder equitable selection, progress or access to benefits of all employees.

The Group recognises it has legal and moral obligations not to discriminate on any basis, and is conscious of ensuring that its workforce reflects the diverse nature of the locations it operates in. Over time the company has improved its facilities in a number of its locations to promote opportunities for female operators and employees with physical disabilities. The company strives to improve shareholder value by ensuring the best candidate for any position is appointed.

Brickworks is a "relevant employer" and reports annually under the Workplace Gender Equality Act. Brickworks has also lodged its 2017-18 Workplace Gender Equality report with the Workplace Gender Equality Agency, which is compliant with the Workplace Gender Equality Act 2012 (Act) and can be viewed in the News and Reports section of the Company's website: [www.brickworks.com.au](http://www.brickworks.com.au). It contains the Group's most recent Gender Equality Indicators.

The Board has established measurable objectives toward gender diversity as follows:

**BOARD MEMBERSHIP:** At the point at which a board vacancy arises, the nomination committee will ensure that the male and female candidates with the best skills and experience as required for the vacant position will be assessed for the role. Brickworks is committed

to having the best director in the role, having regard to the skills and experience required. Female non-executive director representation at the date of this report is 17%. Due to the low number and turnover of directors, Brickworks has not set a defined target for female board representation.

**EXECUTIVE GROUP:** At the point at which a position on the Executive Group becomes available, the best internal candidates (male and female) will be assessed, along with (where applicable) the best male and female external candidates for the role (noting that Brickworks has a policy of promoting from within where possible). Brickworks' goal is to have increased female senior executive representation to 25% by the year 2020 with senior executive being defined as the CEO, Key Management Personnel and Other Executives/General Managers. At balance date, female executive management representation was 24.1% (an increase from 22.7% in 2017 and 19.1% in 2016).

Whole of organisation: Overall, women currently comprise 19.85% (2017 20.3%) of Brickworks' total workforce. Brickworks' goal is to increase this representation to 25% by the year 2020. Brickworks has historically found it difficult to attract and retain female employees, as majority of employees are directly or indirectly engaged in traditionally male dominated manufacturing roles. However, there has been significant improvement in increasing the female pool of candidates for vacant management and senior executive positions.

Each year the Board will report on these objectives and progress towards them as part of the Corporate Governance statement.

### **1.7. Evaluating the performance of the Board, Board Committees, Directors and senior executives**

Non-executive Director performance is reviewed by the Chair. If the performance of any non-executive Director is considered unsatisfactory, the matter is referred to the remainder of the Board. The efficiency, effectiveness and operation of the Board is continuously subject to informal monitoring by the Chair and the Board as a whole. A structured Board review incorporating feedback from each director in relation to the effectiveness of the board and committees was undertaken in July 2018 in the form of a director questionnaire. This assessment will be undertaken annually.

In monitoring the performance and conduct of senior management, the Remuneration Committee formally reviews the performance of the Managing Director and senior executive staff at least annually. In addition to the formal evaluation procedures, senior executive performance is continually monitored by the Managing Director on behalf of the Board, and the Managing Director's performance is subject to continuous monitoring by the full Board. During the current year, the performance evaluations referred to above took place in accordance with the process as outlined in section 8.

## **2. STRUCTURE THE BOARD TO ADD VALUE**

### **2.1. Director Independence**

Having regard to the guidance provided by the ASX Principles, the Board considers that Mrs Deborah Page and Messrs Brendan Crotty, David Gilham and Robert Webster are independent. Notwithstanding their length of service on the Board, the Board considers Mr Webster and Mr Gilham to be independent directors. The Board notes that Mr Gilham had not previously been considered independent due to his historic senior executive roles with Bristile Ltd. However as that ceased in 2003, the Board considers that Mr Gilham is free from any business or other relationship which could materially interfere, or give the appearance of interference, with his ability to exercise independent judgement when acting as a director of Brickworks. As at 31 July 2018, Mr Webster will have served on the Board for 17 years however the Board considers that he continues to bring an independent mind and judgement to the Board and has not become too close to management or any non-independent director for his independence to be compromised. Messrs Robert Millner and Michael Millner are not considered by the board to be independent due to their directorial connection with Washington H. Soul Pattinson & Company Limited (**WHSP**), a major shareholder in Brickworks (either currently or historically). Michael Millner resigned as a director of WHSP in 2012. Robert Millner remains a director of WHSP.

Accordingly, the majority of directors are independent directors and all Board Committees are chaired by independent directors. The Chairman is a non-executive director. The Chairman has extensive corporate and investment experience and provides leadership to the Board. The process adopted below deals appropriately with areas of conflict.

The board has appointed The Hon. Robert Webster as the Lead Independent Director, to act as Chair of the board in matters in which both Robert and Michael Millner are conflicted. This includes considering and making recommendations to the board when circumstances exist or proposals are received when the interests of WHSP may differ from the interests of Brickworks or other shareholders in Brickworks.

In addition, individual Directors of Brickworks are entitled to seek independent professional advice in relation to their role as a Director, at the cost of Brickworks. Directors are required to advise the Chairman or full Board prior to engaging parties to provide this advice.

### **2.2. Board Experience and Skills Matrix**

In addition to comprising a majority of independent directors, the Board feels that there is an appropriate blend of skills and experience covering all aspects of the Company's operations, particularly the core businesses of building products manufacturing and property development. The membership of the Board is reviewed by the full Board, from time to time, having regard to the ongoing needs of the Group. It is the policy of the Board that its membership should reflect an appropriate balance between executives possessing extensive direct experience and expertise in the core business activities of the Brickworks Group and non-executive members who bring to the Board a broad range of general commercial expertise and experience. The length of service on the Brickworks Board of each director is disclosed in section 1.1 of this Statement.

The following table summarises the skills and experience of the directors serving on the Board at 31 July 2018.

New Directors are provided with information comprising governance policies, business information, Board and Committee charters and key policies. The Board also undertakes regular site visits and provides professional development opportunities on matters relating to the Company.

Key Elements of the comprehensive framework cover Business Process, Financial, Human Resources, Information, Property, Environmental, Health and Safety and Insurable Risks.

The Company's Risk register is reviewed by the Audit and Risk Committee and the Board annually. It was last reviewed by the full Board in September 2018.

## 7.2. Internal Audit Function

The internal audit function is undertaken by PricewaterhouseCoopers Chartered Accountants. The internal audit team reports to the Audit and Risk Committee. The annual internal audit plan is prepared by the internal auditors using a risk-based approach that aligns the plan with the Group key risks.

## 7.3. Economic, Environmental and Sustainability Risks

The Board of Brickworks has adopted a Risk Management framework that identifies both Risk Tolerance and Risk Appetite for the group and then considers how each identified risk is placed within that framework.

That process considers the likelihood of an event occurring, followed by the impact of each event. The impact is considered at a human level which measures the likely consequence on people, whether they be employees or the public. Secondly, the financial consequence is considered.

The final step in the process is to consider the controls and processes in place, to continually mitigate each risk.

The following is a discussion of the key risks that may adversely impact the business.

### (a) Building Products

The achievement of business objectives in the Building Products Group may be impacted by the following significant risks:

Risk	Mitigation
Energy Supply – sources and cost of gas and electricity	The Group continues to review upstream investment options, and alternative sources of gas while leveraging supplier relationships to ensure long term gas supply. Electricity is secured, where viable, through long term supply contracts.
Serious Safety Incidents	The Group has a strong safety culture and a well developed WHS system (refer further “ <b>Safety</b> ”).
Environmental incident	The Group has a comprehensive environmental compliance system and strong commitment to environmental protection (refer further “ <b>Environment</b> ”).
Products – alternative products and product failure	The Group has a strong focus on research and development and quality control. The Group monitors market trends and has strategies to diversify its range of building products and its marketing approach.
Shift in housing trend	The movement away from detached housing threatens the Group’s traditional market. The Group has strategies to diversify its range of building products and its marketing approach.
New competitor	Whilst barriers to entry are significant the Group monitors both domestic manufacturing and import competitors and has adopted a customer relationship and quality model, supported by investment in research and development.
Production capacity	The Group manages production capacity by restarting, building and mothballing plant to adapt to cyclical market conditions.
Business Interruption – plant failure or underutilisation and raw material supply	There are multiple facilities throughout Australia that can transport products between locations as and when required. The major facilities have rolling risk reviews and reporting by outside parties. The business also maintains significant insurance policies to manage the physical loss of assets and any loss of income from an insurable interruption. Raw materials are generally secured through ownership of raw material reserves and maintaining prudent raw material stockpiles. Log supply is continually monitored and the Group works closely with relevant Government authorities to ensure licencing renewals.
Asbestos Risk	There has been a comprehensive review of all locations for the presence of asbestos. Building cladding is regularly removed and replaced with non-asbestos based materials. Where any asbestos is found, either within a plant or during rehabilitation, it is immediately quarantined and removed by qualified reputable contractors, using the most diligent safety standards.
Market Risk – deteriorating market conditions	The Group is investing in geographic and product diversification, cost control and continuous improvement of business. Restructuring initiatives have been undertaken in WA to address the challenging market conditions including a pro-active approach to right-sizing our operations to match demand.

### (b) Land and Development

The achievement of business objectives in Land and Development may be impacted by the following significant risks:

Risk	Mitigation
Market Risk	The industrial property cycle may deteriorate, resulting in softening capitalisation rates and lack of growth. The Group manages the risk by monitoring the key economic drivers, employing property professionals who understand the property cycle and undertaking development in joint venture with Goodman Group. The Group regularly conducts hold/sell assessments.
Serious Safety Incidents	The Group has a strong safety culture and a well developed WHS system (refer further “ <b>Safety</b> ”).
Property Trust Financing	The joint property trusts maintain facilities with multiple lenders with various tenors up to 7 years. In addition, gearing is maintained at prudent levels through the property cycles.
Rezoning Risk	The Group takes a long-term approach to achieving the highest and best use for each property. The rezoning process for a property usually commences prior to finalisation of its existing use.

## (c) Investment

The achievement of business objectives in Investment activities may be impacted by the following significant risks:

Risk	Mitigation
Market Risk	The Group's investment in WHSP is subject to market movements and the underlying performance of WHSP. The WHSP investment is diversified across industries other than those in which the balance of Brickworks specialises, which provides a stable stream of dividends over the long term. The WHSP group may have significant exposure to the Coal and Telecommunications Markets.

## (d) Group

The achievement of business objectives in the Group activities may be impacted by the following significant risks:

Risk	Mitigation
Financing Risk	The Group maintains conservative gearing levels below 20% in recognition of the industry's cyclical nature. Senior debt facilities are maintained with financial lenders with whom an open and transparent relationship is maintained. Facilities are maintained over various tenors ranging from 2 to 10 years, ensuring that a maximum of \$200 million will expire at any one point in time.
Cyber Security Risk	The Group has assessed its main cyber security threat as phishing to obtain sensitive company or private information or a virus attack which compromises the system. Investment in technology has increased and risk controls include the use of a VPN and antivirus software to safeguard against incoming viruses from personal computers. Preventative measures include regular system penetration tests and employee training. New leading-edge end-point protection software and firewall protection has been introduced. A disaster recovery plan is in place across the organisation.

## 8. REMUNERATE FAIRLY AND RESPONSIBLY

### 8.1. Remuneration Committee

Brickworks has a Remuneration Committee with a membership of all non-executive Directors. The Committee operates under the delegated authority of the Board, and has its own charter, a copy of which is available on the Brickworks website. Mr Brendan Crotty is Chair of the Remuneration Committee.

The main functions of the Remuneration Committee are to assist the Board in fulfilling its responsibilities relating to:

- ensuring remuneration policies and practices are consistent with Brickworks' strategic goals and human resources objectives and which enable Brickworks to attract and retain executives and Directors who will create value for shareholders;
- equitably, consistently and responsibly rewarding executives having regard to the performance of Brickworks, the performance of the executive and the general pay environment; and
- ensuring executive succession planning is adequate and appropriate.

Remuneration Committee attendance details are included in the Directors' report.

The Remuneration Report contains detailed information relating to Director and Senior Executive remuneration, including the policy and practices for determining remuneration, the use of fixed and variable remuneration, and the relationship between executive remuneration and Company performance.

This Committee is authorised by the Board to obtain external professional advice, and to secure the attendance of outsiders with relevant experience and expertise if it considers this necessary.

#### Non-executive Directors

The Remuneration Committee is responsible for recommending to the Board fees applicable to Non-executive Directors. In accordance with a resolution of shareholders at the 2017 Annual General Meeting, the maximum aggregate amount that is permitted to be paid to non-executive Directors under the Brickworks constitution is \$1.3 million per annum.

Contributions to the retirement allowance plan for non-executive Directors were discontinued on 30 June 2003. Under legacy arrangements, non-executive Directors appointed prior to 30 June 2003 were entitled to receive benefits upon their retirement from office. These benefits were frozen with effect from 30 June 2003, and are not indexed. Since 30 June 2003 no new Directors have been entitled to join this plan. There are no other schemes for the payment of retirement benefits for non-executive Directors, other than statutory superannuation.

Non-executive Directors may also be reimbursed for their expenses properly incurred as a Director, or in the course of their duties. The non-executive Directors do not participate in the Brickworks Short-Term Incentive (STI) Scheme or Long-Term Incentive (LTI) arrangements.

#### Executives

Brickworks' remuneration policies are designed to drive a performance culture and to ensure that the way in which employees are recognised and rewarded through remuneration is in the best interests of the shareholders, the Company and the individual. The remuneration policies achieve this in the following ways:

- by ensuring executive remuneration is linked to both individual performance and Company performance;

- by providing remuneration that is market competitive to ensure Brickworks has the ability to retain and motivate strong performing employees and attract high calibre prospective employees; and
- by undertaking an annual evaluation process on the performance of all executives, the results of which contribute to the determination of any salary adjustment an individual executive may receive.

Retention of executives and highly skilled staff continues to be the Remuneration Committee's highest priority for the following reasons:

- it requires at least 5 to 10 years for executives and production staff to become totally familiar with the complexities associated with the manufacture of clay and concrete building products;
- if there is a breakdown Brickworks needs to be able to restart production within hours and days rather than weeks and months. The necessary skills to deal with these challenges cannot be procured easily outside the Brickworks group; and
- the sale and marketing of building products is a function of good client relationships as well as product excellence. Brickworks cannot afford to lose executives who in some circumstances may have been dealing with clients for 10 - 20 years.

All senior executives undergo a performance and development appraisal each year in accordance with the process set out below:

- at the beginning of each financial year, each senior executive is given a set of key performance criteria against which they will be measured. These criteria include both financial and non-financial performance measures;
- at the end of each financial year, all senior executives complete a self-assessment questionnaire prior to meeting with their manager to discuss their performance over the previous year; and
- a performance appraisal meeting is then undertaken for each senior executive.

### Short Term Incentives (STI)

Brickworks' STI has been designed to focus executives on the necessity to achieve a range of agreed targets for their respective businesses. The STI is structured around the achievement of annual performance criteria based on each executive's capacity to influence targeted outcomes. Brickworks' STI is based on the profitability of operating divisions and the overall Group, as well as the level of achievement of key strategic objectives that will underpin performance in the future. This incentive scheme covers the Managing Director (**MD**), Chief Financial Officer (**CFO**), General Managers, and various other senior managers within the Group.

The table below outlines the STI Plan:

<b>Purpose</b>	The STI is an annual bonus designed to reward executives for meeting or exceeding financial and non-financial objectives over a one year period.
<b>Timing</b>	For the MD and CFO the STI is awarded in cash up to a maximum of 72% of total fixed remuneration (including base salary, superannuation and car allowance) with 33.33% of STI awarded deferred for two years. For all other executives the STI is awarded in cash up to a maximum of 50% of total fixed remuneration (including base salary, superannuation and car allowance). Any excess STI earned above the maximum percentage of total fixed remuneration will not be paid as a cash bonus but will be added to the long-term incentive share allocation for that year with deferral over 5 years.
<b>Target Opportunities</b>	The MD and CFO have a target STI opportunity of 60% of total fixed remuneration while other executives have a target STI opportunity of between 12.5% and 50% of base salary. STI as a proportion of base salary for an employee increases as that employee gains greater responsibility and has greater capacity to influence the performance of the business as a whole.
<b>Performance measures</b>	Each year the Remuneration Committee sets KPI's for the MD and CFO for the financial year, with a view to directly aligning the individuals' annual incentive opportunity to execution of the Group's business strategy. The MD determines the KPI's which are aligned to the delivery of the strategy and performance of the business. Payments under the STI are determined by performance against KPIs. STI performance measures and weightings vary by executive depending on individual accountabilities for the financial year 2018. The metrics and their rationale for selection are as follows:
	<b>Rationale for selection</b>
	<u>Financial measures</u>
	Divisional profit compared with the base target      Focus senior executive attention on results and performance for segments for which they have direct responsibility.
	Cash generation      Managing cash to ensure cash and working capital is available whenever and wherever required by the business.
	<u>Non-financial measures</u>
	Quality of earnings      This measure considers the quality of the earnings result including goodwill impairments and windfall gains.
	Strategic      Focuses senior executives on strategic initiatives such as new product development, network strategy, rationalisation of surplus assets, restructuring and rationalisation of operations to deliver growth and improve business performance.

Operational	Key operational deliverables align management to the strategic initiatives of the Group with a focus on long-term sustainability of earnings such as production and returns on net tangible assets, efficiencies, operational and manufacturing improvements.
Safety, Health and Environment	Rewards employees for demonstrated leadership in enhancing workplace safety and taking a sustainable approach to operations through scientific innovation.
People	Effective leadership, talent development, retention and succession planning are critical to the success of the business and underpin financial performance.

## Weighting of performance measures

### MD and CFO

The potential STI for the MD and CFO at target is based on 60% of total fixed remuneration (including base salary car allowance and superannuation) the payout schedule against the financial measures is outlined below:

#### Percentage of financial component of STI Award payable for the MD and CFO

Target	STI Award
110% of profit target	120% of potential STI
Between 100% and 110% of profit target	Pro rata award on a straight line basis between 100% and 120% of potential STI
Between 80% and 100% of profit target	Pro rata award on a straight line basis between 60% and 100% of potential STI
Below 80% of profit target	No STI Award

The total STI Award calculated as set above is then considered against each performance measure component as follows:

- 37.5% of any STI Award is paid to reflect profit performance
- 37.5% of any STI Award is paid as set out below:

Target	STI Award
100% of budgeted operating cash flow	100% of 37.5%
Between 80% and 100% of budgeted operating cash flow	Pro rata award on a straight line basis between 60% and 100% of 37.5%
Below 80% of budgeted operating cash flow	100% of 37.5% forfeited

- The remaining 25% of any STI Award is payable on each non-financial measure reached.

### Other Executives

The STI for all other executives is weighted 75% for financial measures and 25% for non-financial measures.

#### Percentage of financial component payable for other executive KMP (ie. 75% of total STI)

<u>% of profit target achieved</u>	
Between base target and upper target	Straight line between 50% and 100%
> upper target	Pro rata equal to the percentage over budget to a maximum of 50% of total fixed remuneration
<u>% of cash target achieved</u>	
Between base target and upper target	Straight line between 50% and 100%

There is no upside available against cash and non-financial measures.

## Performance assessment

### MD and CFO

At the end of the financial year the Remuneration Committee assesses actual performance against their respective KPIs and recommends the STI quantum to be paid to the individuals for approval by the Board.

These assessment methods have been chosen as they provide the Remuneration Committee with an objective assessment of each individual's performance.

### Other Executives

At the end of the financial year the MD assesses the actual performance against their respective KPIs and determines the STI quantum to be paid to the senior executives. The MD provides these assessments to the Remuneration Committee annually.

The Remuneration Committee and the MD have the discretion to take into account any significant non-cash items, for example acquisitions and divestments and one-off events/abnormal/non-recurring items in determining whether the financial KPIs have been achieved, wherever and whenever this is considered appropriate for linking remuneration reward to Company performance.

**Other features      Clawback**

There are currently no clawback clauses for STI payments.

**Termination**

Should the employment of either the MD or CFO be terminated other than for cause all outstanding STI payments the subject of deferral will be paid as if their employment had continued.

Further information relating to the short-term incentive plan for FY2018 is set out in the Company's Remuneration Report.

**Long Term Incentives (LTI)**

The objectives of the Company's LTI plan are to align the interests of executives with shareholder interests, balance short-term with long-term Company focus and retain high calibre executives by providing an attractive equity based incentive.

The table below outlines the LTI.

**What is the LTI?**

The Group operates an LTI Plan through the Brickworks Deferred Employee Share Plan in which employees receive Brickworks Limited shares. No consideration is payable by participants for shares under the terms of the plan.

**Scope**

The LTI is a broad based employee share plan with 594 employees participating as at 31 July 2018 via 1,597,739 shares on allocation of which 49.81% remain unvested (and 50.19% vested). In addition 28,409 shares in the plan were forfeited during the year to 31 July 2018.

**Purpose**

The primary purpose of the LTI is the retention of the Company's senior executive team. For example, acquisition of the necessary knowledge to successfully manage the manufacturing processes for building materials usually requires an immersion period of at least 5 years and in some sectors, such as brick production, as much as 10 years. Similarly, an executive who knows the Company's clients extremely well and has a long history of successful negotiations with them will also be difficult to replace. Not surprisingly, Brickworks seeks to retain as many of its experienced executives as practically possible.

**Opportunity**

The value of shares granted was dependent upon the employee's position within the Group and their base salary. For the MD and CFO this STI entitlement is 60%. For all other executives, this STI entitlement is up to 50% of base salary.

However, the value of LTI shares may exceed these percentages as a consequence of STI cash payments being capped at 50% of fixed remuneration for all executives (and at 72% of fixed remuneration for the MD and CFO). Outperformance against the STI measures are recognised by the grant of additional LTI shares.

**Performance measures that apply for allocations made in FY 2018 for the MD and CFO**

For performance securities granted after 1 August 2017 to the MD and CFO 50% of the award is subject to Brickworks TSR compared to the companies in the S&P/ASX 200 Franking Credit adjusted annual total return Index and 50% of the award is subject to an absolute TSR summarised below.

**Relative TSR**

This is a relative TSR measure. The vesting schedule is:

BKW's TSR inclusive of Grossed Dividends as a % of S&P/ASX 200 Franking Credit adjusted annual total return Index (XJOAI Franked)	Level of Vesting
120%	100%
80% to 100%	Pro rata vesting on a straight line basis between 90% to 100%
50% to 80%	Pro rata vesting on a straight line basis between 50% to 90%
Below 50%	Nil

**Absolute TSR**

This is an absolute measure. The Absolute TSR is equivalent to the sum of the grossed up dividend yield plus or minus the movement in the 90 day VWAP's during the year under review. The vesting schedule is:

Absolute after tax (pre-tax with gross up for dividend component) TSR Target over the performance period	Level of Vesting
7% or greater	100%
6% to 7%	Pro rata vesting on a straight line basis between 50% and 100%
6%	50% vesting
Less than 6%	No vesting

The Board believes that these measures, when combined with the STI, the vesting period for deferred STI and LTI requirements provides the most suitable link to long-term security holder value creation because:

- no shares allocated to the MD and the CFO after 2015 will vest based only on tenure;
- absolute TSR ensures vesting is commensurate with the company's actual TSR, meaning there are no awards when TSR is negative and it also provides a good line of sight for the MD and CFO;
- measuring TSR on a relative basis levels the playing field by removing overall market movements and industry economics for the evaluation of MD and CFO performance;
- the use of relative TSR ensures that the MD and CFO are motivated to deliver returns that are superior to what a security holder could achieve in the broader market and ensures as the most senior management they maintain a strong focus on security holder outcomes;
- Brickworks calculates its after tax TSR incorporating the full value of franking credits. The S&P ASX 200 Franking Credit adjusted annual total return Index also adjusts the total return for the tax effect of franking credits;
- the use of the S&P ASX 200 Franking Credit adjusted annual total return Index was chosen as the relative performance target following testing of this group against a range of historical and future share price/payout scenarios to confirm that outcomes align with the Company's historical notion of superior long-term performance. The S&P ASX 200 Franking Credit adjusted annual total return Index measure (XJOAI Franked) adjusts the total return of the S&P / ASX 200 Accumulation Index for franked dividends to ensure consistency of calculation. This Index is readily available and simple to use as a comparator for a Group that spans across the building materials and property development sectors. Furthermore, Brickworks does not have to separately manage and adjust a custom peer group for changes among constituents. The hurdles are reviewed annually by the Board and the Board believes that the TSR measures will drive outperformance without encouraging excessive risk taking; and
- while the Board appreciates that there are at times different views held by different stakeholders, it considers that these measures provide the appropriate balance between market and non-market measures.

The assessment of TSR Shares against each of the absolute and relative TSR targets is undertaken progressively for 20% of the TSR Shares on 31 July for each of the 5 years following the allocation date.

The share price used at commencement of each tranche for assessing both relative and absolute TSR performance of Brickworks shares is the 90 day Volume Weighted Average Price (VWAP) prior to 31 July. The actual share price used to compare to the TSR target share price is the 90 day VWAP prior to testing.

In any one year up to five TSR Share tranches allocated will be tested. The TSR performance target for each allocation in that year is the average of 5 Brickworks share prices calculated from 5 different commencement VWAPs on 5 different years (i.e. it will include the average of a Brickworks one year TSR, a two year TSR, a three year TSR, a four year TSR and a five year TSR).

The level of vesting applicable to each tranche is outlined above. However, to ensure a long-term focus is maintained by the MD and CFO, to the extent that any tranche does not vest in one year it will be deferred and form part of the shares that are eligible for vesting in the following years. In other words, underperformance in one year can be made up by over performance in the following years, provided that underperformance may only be made up by outperformance by the end of the 6th year from the date of first allocation.

For example, if the absolute TSR target of 8.0% or more is met, there will be an incremental vesting of, of each prior year's entitlement, if any of these allocations did not vest. To ensure long-term focus is maintained, by the MD and CFO this enables underperformance in previous years to be partially made up by over performance in this and the following years.

The cumulative vesting can reach a level that will be equivalent to but not more than the total number of shares originally allocated.

## **Other features**

### **Clawback**

There are currently no clawback clauses for LTI payments.

### **Change of Control**

If a change of control event occurs in relation to Brickworks Limited then any shares held by the employee share plan trust on behalf of a participant will vest immediately upon the announcement to ASX of a change of control event.

### **Treatment of Dividends**

The employee receives the voting rights and any future dividends immediately upon the granting of shares. This reflects the relatively long-term nature of the 5 year performance period and that the primary purpose of the LTI is one of retention. Executive's entitlements to dividends attributable to the unvested performance shares reflects the reality that if there is no dividend entitlement, the number of performance shares that would need to be granted to achieve the same retention impact, is likely to be approximately 10% to 15% greater than current allocations.

### Sources of Shares

The Board has the discretion to either purchase shares on-market or to issue new shares for participants. During the year shares granted to the MD through the LTI were purchased on market. Shares granted to employees other than the MD were issued as new shares.

### Derivatives

Under the Company's Securities Trading Policy Brickworks shares are not permitted to be used to secure any type of financial product such as margin loans or similar. Options, collars and/or other financial derivatives must not be used in respect of any Brickworks shares.

Further information relating to the long-term incentive plan for FY2018 is set out in the Company's Remuneration Report.
