## EEO PUBLIC REPORT 2012

### Part 1 - Corporation Details

#### Controlling Corporation

Insert the name of the Controlling Corporation exactly as it is registered with the EEO Program.

Brickworks Ltd

#### Table 1.1 - Major Changes to Corporate Group Structure or Operations

##### Table 1.1 – Major Changes to Corporate Group Structure or Operations in the last 12 months

There were no major changes to the corporate structure during the period, however we did see the consolidation of our Victorian brick operations with the shutting down of Summer Hill & Craigieburn and the full commissioning of Wollert.

#### Declaration

##### Declaration of accuracy and compliance

The information included in this report has been reviewed and noted by the board of directors and is to the best of my knowledge, correct and in accordance with the *Energy Efficiency Opportunities Act 2006* and *Energy Efficiency Opportunities Regulations 2006*.

  
Lindsay Partridge  
Managing Director

Date

30/10/12

## Part 3 – Transition to Second Cycle

This table should only be completed by 2005-06 trigger-year corporations transitioning to the second cycle.

In December 2011 many corporations reported energy efficiency opportunities that were still under investigation as at 30 June 2011. This report should advise what your business response to these opportunities has been – implemented or not to be implemented. If you intend to further investigate these opportunities, they should be reported in the future Public Reports as opportunities identified in the second cycle.

Status of opportunities identified to an accuracy of better than or equal to ±30%		Total Number of opportunities	Estimated energy savings per annum by payback period (GJ)						Total estimated energy savings per annum (GJ)
			0 – 2 years		2 – 4 years		> 4 years		
			No of Opps	GJ	No of Opps	GJ	No of Opps	GJ	
As reported in December 2011	Under Investigation	19	6	13,019	7	1,117	6	2,051	16,187
Business Response as at 30 June 2012	Implemented	1	0	0	0	0	1	0	0
	Not to be Implemented	15	6	13,019	5	643	4	2,051	15,713
	To be evaluated/reported in the second cycle	3	0	0	2	474	1	0	474

**Note:** Energy savings with zero (0) GJ are associated with Demand type projects which impact kVA only.
